## HEALTH AND SAFETY POLICY STATEMENT

### Health and Safety at Work Act 1974

#### **Section 1 – General Safety Policy Statement**

FDS (Cambridge) Ltd believes that Health and safety should have equal importance to quality, cost, production and morale. It accepts it's responsibility to provide a working environment that is safe and without risk to health.

Management will take all reasonably practicable steps to meet this responsibility paying particular attention to:

- The provision and maintenance vehicles, plant and systems of work that are safe and without risks to the health of employees or any other persons likely to be affected by work activities.
- Proper arrangements for the use, handling, storage and transportation of materials and substances.
- The provision of information, instruction, training and supervision to assist all employees to avoid injury and contribute positively to their own safety health at work, with adequate communication of information, instruction and supervision, to avoid injury to any other person likely to be affected.
- The provision of safe place of work and environment, which has safe access and does not present a risk to health to any person.
- The provision of adequate welfare facilities.

This can only be successful with the active cooperation of all employees. Management therefore believe that it is the responsibility of all employees to perform their assigned duties safely by following established safe working procedures, using proper safety equipment and by reporting or correcting unsafe acts and conditions.

Franco De Simone / Managing Director
